

MILESTONE MOMENTS
WEDDING
CONTENT
CREATION

ABOUT ME

Hi, I'm Emer!

I've been working in content creation for over 6 years, blending creativity with storytelling to capture life's most meaningful occasions. On your wedding day, I bring a calm, creative presence behind the camera. Making sure you feel relaxed while I quietly document the magic as it unfolds.

I love capturing the behind the scenes moments ... the laughter while getting ready, the natural glances, the little details that couples often miss in the rush of the day. These raw, unscripted snippets often become the most treasured memories.

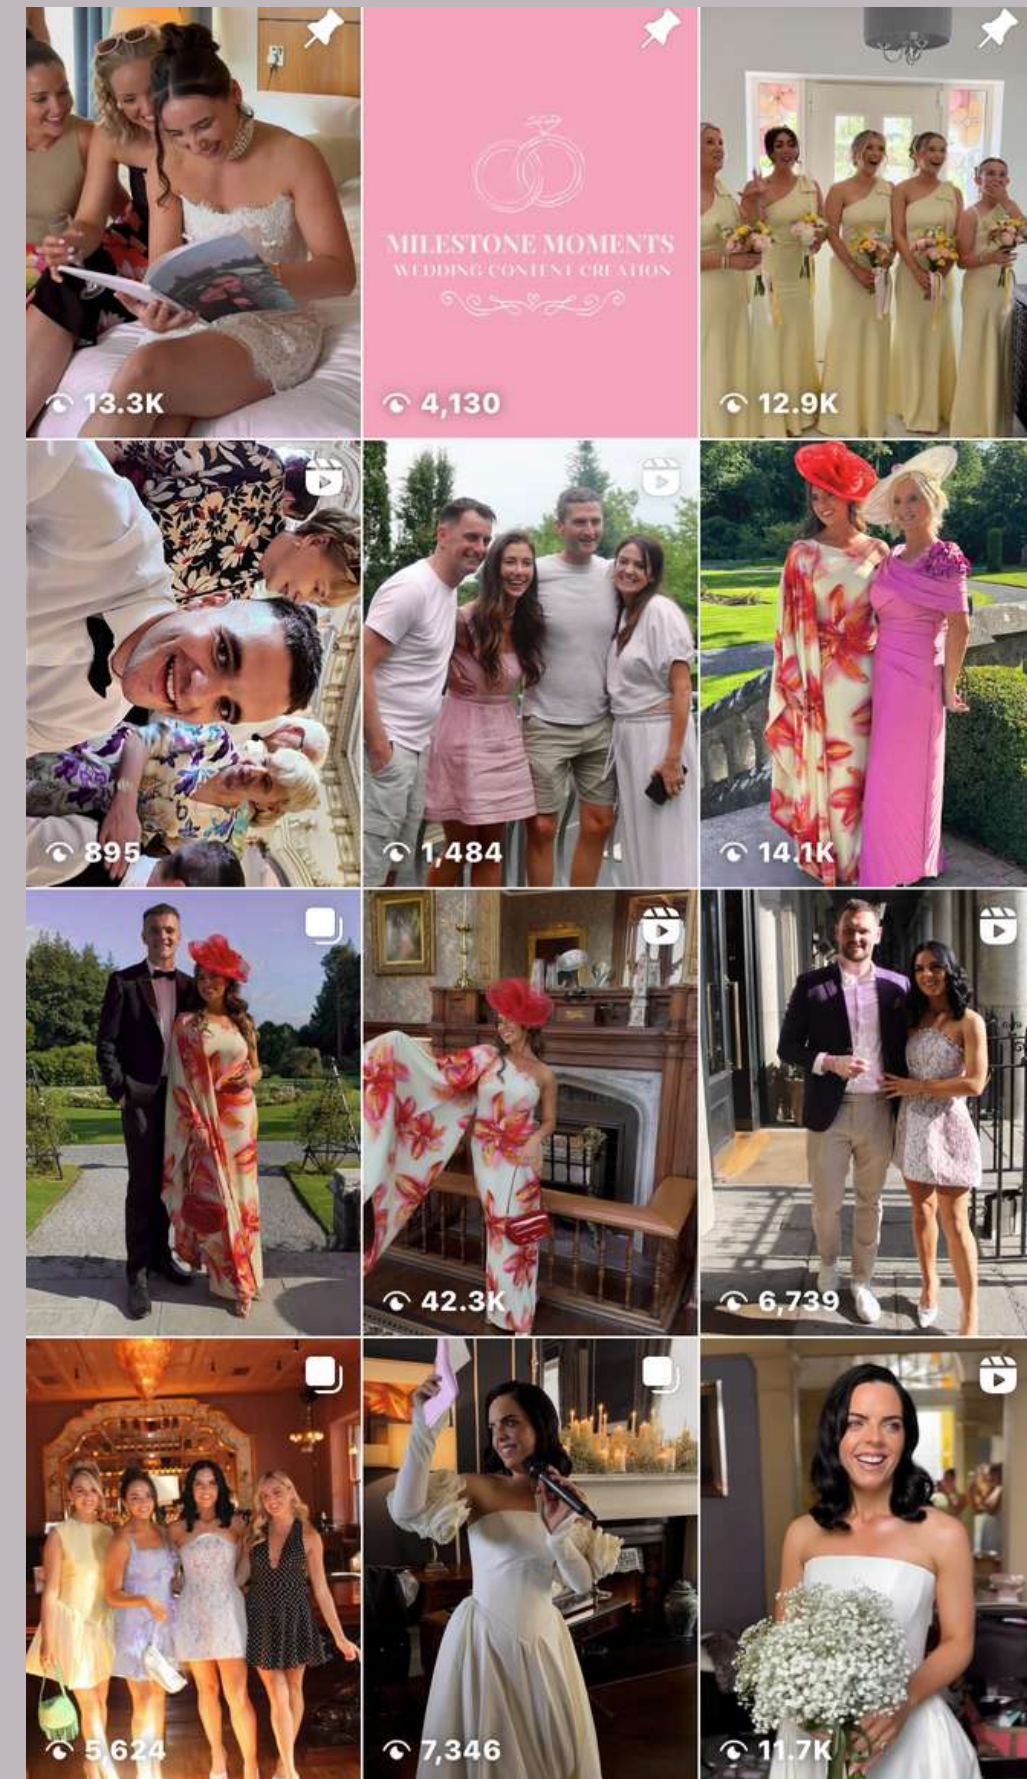

At Milestone Moments, my goal is to create authentic, beautiful content. You'll wake up the very next day with hundreds of candid photos and videos, plus polished highlight reels & clips within 24-48 hours, so you can relive the joy while it's still fresh.

Every wedding tells its own story & I'd be honoured to help preserve yours forever.

WHAT IS WEDDING CONTENT CREATION?

Wedding Content Creation involves capturing your day with a behind the scenes, relaxed and candid approach from behind an iPhone! My goal is to tell a story that perfectly incapsulates the magic of your day. Allowing you to relive the magic, feeling how you did in that very moment.
